JOB TASK ANALYSIS

A Job Task Analysis (JTA) is a very close look at a job, portion of a job, or concept of a job in order to identify the tasks and associated knowledge, skills, and abilities (KSAs) required to competently perform the job. The JTA is organized in seven domains or large areas of responsibility:

BUSINESS PROBLEM
(QUESTION) FRAMING

ANALYTIC PROBLEM
FRAMING

DATA

DEPLOYMENT

METHODOLOGY
(APPROACH) SELECTION

MODEL
BUILDING

LIFE CYCLE
MANAGEMENT
